This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

In issuing the fourth volume of Wiltshire Registers the Editors are glad to be able to include one more practically complete Register—that of Urchfont—which begins in 1538, and is continuous from that date. With the exception of the first volume, which has received some damage during an existence of over three centuries and a half, the books appear to be as complete as they have ever been.

In the adjoining parish of Stert the Registers begin about forty years later; but those of Preshute and Colerne date only from the seventeenth century, viz., from 1606 and 1661 respectively.

Already there have been printed in this series the Marriage Registers of the following parishes:—

VOLUME I.

Mere.	Alderton.
Monkton Deverill.	Sopworth.
Kingston Deverill.	Grittleton.
Sherston Magna.	Leigh Delamere

VOLUME II.

Marlborough, St. Peter's	Yatton Keynell.
Marlborough, St. Mary's	Durrington.

VOLUME III.

East Knoyle.	Milston.
Britford.	Bulford.
Ashley.	Newton Tony.
Crudwell.	Allington.
Stockton.	Boscombe.
Long Newnton.	

In the next volume it is proposed to print the Marriage Register of the important parish of St. Thomas', Salisbury.

If any evidence is needed of the advisability of printing the contents of our Parish Registers, it may be found in the fact that during January last two churches in Nottinghamshire were burnt

down. In one case the Registers were saved; whether they were lost in the other has not been heard, but it is gratifying to know that the Marriages of both parishes had already been transcribed for the Nottinghamshire volumes of this series.

The Editors desire to acknowledge their indebtedness to the clergymen of the various parishes for affording permission and facilities for the transcription of the Registers; to the Rev. Dr. J. Hamlyn Hill for the transcription and collation of those of Urchfont and Stert; to the Rev. Maxwell H. Smith and the Rev. H. H. Stephens for those of Colerne, and to Mr. E. Ll. Gwillim for those of Preshute. It is by means of such assistance alone that the work is at all practicable, and the Editors earnestly invite similar co-operation with regard to other parishes.

Again the Editors wish to point out that these transcripts are not legal "evidence". When certificates are needed application must be made to the clergy in whose custody the Registers are.

Marriages at Preshute,

1606 to 1812.

NOTE.—The Registers of this parish prior to 1813 are contained in nine volumes, in the first six of which are found recorded Baptisms, Marriages, and Burials; in the seventh there are no entries of Marriage, and in the eighth are Marriages only. The ninth is a Register of Marriages only for the then extra-parochial districts of Savernake Park and Forest, and Clatford Park.

Volume I begins with an entry dated 28 July 1606, and ends with one dated 1 February 1639-40.

Volume II contains the entries from 18 May 1640 to 3 June 1650, and an incomplete one of 11 January 1704. There is a gap of a little more than four years between the end of this volume and the beginning of the next, which has on the first page the record of the swearing-in of the Registrar; and another, 1643 to 1647.

Volume III commences on 7 August 1654 and goes on to 20 January 1686-7.

Volume IV begins in April 1687 and ends on 21 April 1707. The entry above-mentioned in Volume II should have been made in this volume, and is printed here in its proper order of date.

Volume V contains the Marriage entries between 13 April 1707 and 5 July 1741. The first two are repetitions of the last in the preceding book, and the last two are repeated in the next book.

Volume VI begins on 18 April 1741 and ends on 11 February 1754. In it is a table of statistics of Baptisms, Marriages, and Burials from 1688 to 1779, with some other information.

Volume VII contains no entry of Marriage.

Volume VIII is made up of the ordinary printed forms adopted at the time, and begins on 14 October 1754. It is the first Register of Marriages only, and continues to the end of 1812.

Volume IX is a separate Marriage Register, "the first" for Savernake Park and Forest, and Clatford Park, and dates from 1 October 1783, at which time the Vicar had obtained a licence for a separate Register.

These transcripts have been made, and collated with the Registers, by Mr. E. Ll. Gwillim, and are printed with the permission of the Rev. W. G. Hubbard, the Vicar of Preshute.

Marriages at Urchfont,

alias Erchfont,

1538 to 1812.

NOTE.—The Registers of this Parish begin with the year 1538; and allowing for some gaps, may be said to be complete. Prior to 1813 there are seven volumes, the first five of which contain entries of Baptisms and Burials as well as Marriages.

Volume I is of paper, it begins in 1538, and ends in 1559; the first and last leaves have pieces missing, and there is a gap in the entries between 1546 and 1550. Then follow 13 large parchment sheets, and five half-sheets, strung together, with entries down to 30 January 1630-1. A half-sheet is missing and with it the entries between June 1589 and May 1591; in 1614 a piece has been cut out, leaving a gap until May 1617; and the last sheet is badly damaged. For many years the writing is excellent, but in places the sheets are much worn and illegible.

Volume II is of parchment, and contains the entries from June 1631 to September 1653. Much of the writing in this and the two next volumes is almost illegible.

Volume III begins in February 1653-4, and ends in October 1682. During the first three years and a half the Marriages were all performed by a Justice of the Peace.

Volume IV begins in April 1683, and ends in November 1745. This volume contains a number of notes on various entries—one in Greek, two in French complaining that the fees were paid in French coin, and one in symbols—but as they contain nothing now of interest they are not printed.

Volume V contains entries of Baptisms and Burials from 1746 to 1801, and of Marriages from 1746 to 1753 only; after which date the ordinary forms were adopted in

Volume VI from 1754 to 1797, and in

Volume VII from the latter date till the end of 1812.

These transcripts have been made and collated with the Registers by the Rev. J. Hamlyn Hill, D.D., the Vicar of Urchfont, and are printed with his kind permission.

Marriages at Stert,

1579 to 1812.

NOTE.—The earliest Register in this parish dates from 1579, but there is no entry of Marriage before 7 August 1585. The book is made up of parchment sheets sewn together, and contains entries of Baptisms and Burials as well as Marriages; it is chiefly legible. The last Marriage entry is dated 3 May 1618.

Volume II is similar, with a parchment cover, and contains the entries from 20 June 1619 to 1 April 1667; apparently there were no Marriages between the latter date and September 1671.

Volume III is of parchment, and more legible than Volume II. It commences in September 1671, and ends in April 1733.

Volume IV is of paper, with a parchment cover. Like the three earlier ones, it contains entries of Baptisms, Marriages, and Burials, but the Marriages only go down to February 1754; the other entries continue until 1812.

Volume V contains Marriage entries only, from 15 June 1754 to the end of 1812. It is made up of the usual printed forms, and bound in calf.

These transcripts have been kindly made by the Rev. J. Hamlyn Hill, D.D., Vicar of Urchfont and Stert; they have been collated with the originals by him, and are printed with his permission.

Marriages at Colerne,

1661 to 1812.

NOTE.—There are four volumes of Registers containing Marriage entries in this parish. The first two contain entries of Baptism and Burial as well.

Volume I, according to a note at the commencement, begins at "the later end of October anno Dom. 1661 (being the time that Mr. Robert Harper clerke was elected to be Vicar at Colerne)", and was in use until 1713.

Volume II begins on 25 March 1713, the first Marriage is entered 7 June following, and continues till 15 April 1754.

Volume III, made up of the usual printed forms for Marriages, dates from 24 December 1754, to 24 September 1767.

Volume IV, commences on 3 August 1767. There is thus an overlapping, but no repetition; the last entry in the previous volume and the first in this referring to different Marriages. This volume ends with the end of the year 1812.

These transcripts have been made by the Rev. Maxwell H. Smith, formerly of Colerne; they have been collated with the Registers, and are printed with the permission of the Rev. H. H. Stephens, the present Rector.
